

Nuclear Decommissioning 2010

Wednesday 24th February 2010, Manchester

*National developments,
supply chain prospects
and future funding*

5 reasons to attend:

- 1.** Hear **procurement and project updates** on the major nuclear decommissioning sites
- 2.** Gain insights into **building risk** into decommissioning contracts
- 3.** Interact with **decommissioning clients**
- 4.** Explore what the **future of decommissioning** in the UK holds
- 5.** Update yourself on current **radioactive waste management best practice**

Featuring:

Simon Middlemas
Managing Director
DSRL

Mark Lesinski
Managing Director
Magnox South

Edwina Winter
Deputy Site Director - Trawsfynydd
Nuclear Decommissioning Site
Magnox North

Russ Mellor
Executive Decommissioning
Director
Sellafield

Nuclear Decommissioning Authority planned expenditure in 2010/2011 is £2.7 billion.*

*data from NDA Business Plan 2009-2012

The big nuclear clean up is providing many companies with secure work and will continue to do so for years to come.

However the industry faces many challenges, including the rise of the nuclear new build agenda and possible funding constraints post 2011.

Committed supply chain organisations and potential new entrants into the market must keep abreast of:

- **Current and future projects**
- **National developments**
- **New contracts coming up**

Do you know where the decommissioning opportunities lie for your business?

New Civil Engineer's established annual **Nuclear Decommissioning** conference will provide you with an update on decommissioning activities, procurement strategies and supply chain opportunities in the UK.

This year's event promises:

- **MORE** insights from **Site Licensing Companies** on their priorities for the coming two years
- **MORE** opportunities to **meet clients and leading contractors** in the decommissioning field
- **MORE** information on **managing risk** in nuclear decommissioning contracts

So if you are you looking to shape your strategy for winning work next year, or you are keen to understand what prospects the decommissioning industry can offer your organisation, attend **Nuclear Decommissioning 2010.**

Who should attend?

- Nuclear civil engineering contractors
- Consulting engineers
- Site Licensing Companies
- Nuclear decommissioning solutions providers
- Law firms

Pre-Conference Briefing Developments in low level radioactive waste management

Tuesday 23rd February 2010, Manchester

An afternoon briefing offering the nuclear decommissioning community the opportunity to find out more about current thinking, practice and progress in the management of low level radioactive waste.

13:00 Registration and refreshments

13:30 Opening welcome
Rob Scott, Business and Operations Manager
Nuvia Ltd

13:35 **A contractor's view of the management of Low Level Waste (LLW) in the UK**

- Brief outline of what constitutes LLW
- Developments in NDA strategy towards LLW
- Overview of contracting opportunities for LLW processing, storage and disposal
- Current challenges the nuclear decommissioning community faces in relation to LLW

Rob Scott, Business and Operations Manager
Nuvia Ltd

14:05 **Project focus: Developments and future plans at the Low Level Waste Repository Site**

The speaker offers an update on work going at the LLWR site, focussing specifically on; the vision for LLWR, new waste facilities, upcoming procurement of contracts and advice for those looking to win work at LLWR

Dick Raaz, Managing Director, **LLWR Ltd**

14:35 Question and answer session

14:50 Refreshments

15:10 **Project focus: Low Level Waste management at Sellafield**

- Exploring current waste streams and strategies employed at Sellafield for treating LLW
- Planned future developments and areas for innovation
- Prospects for further waste treatment supply chain opportunities at Sellafield

Laurence Cook, Head of Waste Operations
Sellafield

15:40 **Extended question and answer session and summary discussion involving all speakers**

16:10 End of briefing

Last year's delegates commented:

"A very good update on supply chain strategies in nuclear decommissioning"

Andrew Doubt, BNS Nuclear Services

"Motivated me to get involved in supply chain again"

Phil Brocklebank, Wilde Consulting Engineers

Nuclear Decommissioning 2010

Programme - Wednesday 24th February 2010, Manchester

08:30 Registration and refreshments

09:10 Opening address from the Chair
Antony Oliver, Editor, **New Civil Engineer**

09:20 **The vision for nuclear decommissioning for 2010 and beyond**

- Possible funding scenarios post general election
- Government decommissioning priorities for the near and long-term future
- Ensuring decommissioning is not left behind by the rush for new build contracts

09:50 Question and answer session

10:00 **Developments, future plans, supply chain opportunities**

Obtain updates from the Site Licensing Companies (SLCs) operating the major decommissioning sites across the UK. Hear about:

- Developments over the last year
- Strategy and funding priorities over the next two years
- Supply chain opportunities
- Major challenges for the year ahead

Magnox North

Edwina Winter, Deputy Site Director - Trawsfynydd Nuclear Decommissioning Site, **Magnox North**

10:30 **Magnox South**
Mark Lesinski, Managing Director, **Magnox South**

11:00 Morning refreshments

11:30 **DSRL**
Simon Middlemas, Managing Director, **DSRL**

12:00 **Sellafield**
Russ Mellor, Executive Decommissioning Director
Sellafield

12:30 **Question time with the Site Licensing Companies**
An interactive session geared towards getting your questions answered. Quiz the SLC's on aspects of their strategies going forward, where they see the future of nuclear decommissioning going or what they would do to try and secure government funding in the future.
Simon Middlemas, Managing Director, **DSRL**
Mark Lesinski, Managing Director, **Magnox South**
Edwina Winter, Deputy Site Director - Trawsfynydd Nuclear Decommissioning Site, **Magnox North**
Russ Mellor, Executive Decommissioning Director
Sellafield

13:00 Lunch

14:00 **Legal lessons for the supply chain: Risk, contracts and dispute resolution**
■ Understanding how nuclear decommissioning contracts are managed
■ Recognising where the risk starts and ends and building this into decommissioning contracts
■ Managing risk actively rather than passively
■ Highlighting common disputes and pitfalls in supply chain contracts: How can these be resolved?
Andrew Renton, Partner - Head of Energy
Dundas and Wilson LLP

14:30 Question and answer session

14:40 **Contractor panel discussion: The future of nuclear decommissioning**

Panel Discussion

An opportunity to get the views of some of UK's leading nuclear contractors on the following issues:

- Given funding constraints where should decommissioning priorities lie in the future?
- How can the nuclear decommissioning industry retain resource and skills being enticed away by the prospect of new build?
- How can clients and the supply chain work more effectively together?
- Crystal ball gazing: what will the nuclear decommissioning market look like in five years time?
Steve Wheeler, Director - Nuclear Development, **Serco**
Peter Lutwyche, Nuclear Operations Director, **Jacobs**
Keith Collett, Managing Director, **Nuvia Ltd**

15:10 **Speed Networking Session - Bring your business cards!**

All attendees are invited to join this speed networking session. This is your opportunity to meet potential clients and professionals from the nuclear decommissioning industry, make new contacts, discuss the key issues currently facing your organisation and identify future partnerships.

15:25 Afternoon refreshments

15:55 **Managing nuclear waste: Regulatory update**

- Exploring recent changes in nuclear waste management legislation and what it means for the nuclear and waste management communities
- Latest developments on sending low level nuclear waste to landfill
- What criteria need to be fulfilled to obtain a permit for disposal of low level radioactive waste?
- What news of a national nuclear waste repository?
David Bennett, Strategic Policy Manager, Radioactive Substances Regulation, **Environment Agency**

16:25 **Latest initiatives for nuclear waste management at Magnox South**

Case Study

- Exploring the waste management strategy on Magnox South sites
- Understanding the quantities and types of radioactive waste produced
- Highlighting recent innovations in waste reprocessing, storage and disposal and areas for future development
Karan North, Waste Manager, **Magnox South**

16:55 Question and answer session

17:05 Closing remarks from the Chair and end of conference
